Bring-In Info Days

Join us for the Open Info days of the Bring-In project!

"**BRING-IN –Building professional capacity to combat discrimination against and better meet the needs of Intersex Persons**" project is a **2-year ground-breaking initiative** that aims at enhancing the visibility of Intersex People and promoting Intersex Equality in **Greece, Hungary, UK and Bulgaria** by building the capacity of social and healthcare professionals on how to recognize, prevent and combat discrimination on the grounds of sex characteristics, while raising public awareness and advocating for the need to act upon the human rights violations that intersex people face.

In an effort to promote the main objectives of the project, the Bring-In consortium organizes **Open Info Days** in each partner's country, which aim at the training of social support and health security professionals in supporting intersex people in order to combat discrimination and unnecessary and non-consensual premature surgeries. The Info days' events address to a number of audiences that will bring value to the protection of the human rights of intersex people, primarily to **social** (e.g. **social workers, psychologists**, etc.) and **health care (medical/ paramedical) professionals**, the general public, and **policy and decision makers** at local, national and EU level.

During the info days events, apart from the main goals and objectives of the project, the training programme for professionals will be presented!

We are looking forward to meeting you in our Open Info Days!

Stay tuned for more information!

For more information, please visit our continuously updated [WEBSITE](#) in English, Greek, Bulgarian and Hungarian.

Consortium

The BRING-In consortium represents a dynamic mix of well-respected and high qualified academic institutions, civil society organisations, human rights and LGBTI/ gender equality advocates and ICT experts and capacity providers (i.e. professional associations) that altogether will BRING-In all necessary knowledge, experience and resources to achieve the project objectives and expected results and by that way positively influence national and EU policy development in the field of intersex people's human rights.
